

Instilling Best Practices Through a Mapped Curriculum

Curriculum mapping provides insight into the content, instructional strategies, and assessments being used in the classroom. Through collaboration and reflection, adjustments can be made where they are needed, and exemplary approaches can be shared to everyone's benefit.

Edhesion allows for the mapping of Content, Skills, Assessments, and Instructional Strategies in alignment with district defined Benchmarks and Standards, and has the flexibility to associate custom metadata with mapping categories to fit district curriculum practices.

Leading By Example

Curriculum Maps that are considered to be excellent representations of the district Best Practices can be designated as Master Maps, which serve as an available resource for faculty to utilize in mapping their own units.

Curriculum Mapping fosters collaboration, and facilitates iterative improvements in instruction. Edhesion provides powerful and flexible tools to maximize curriculum mapping's impact on student achievement.

| Unit | Content | Skills | Assessments |
|----------------------------------|---|---|--|
| Unit 2 9/14/2018 - 9/14/2018 | How Content How Content How Content was Tracked | Behavior Skills Skill Anchor skills Skill Anchor Skills | No Assessments No Assessments No Assessments |
| Unit 3 9/14/2018 - 9/14/2018 | Content is Fun Where did they learn this one? Content | Skills is Good Critical thinking Critical thinking Critical thinking | No No Assessments No Assessments |
