Now add the flexibility of MimioPad interaction from anywhere in the classroom, and watch your students' motivation soar!

How the offer works

Beginning March 1, 2011 through March 31, 2011, buy the MimioTeach interactive system for just \$799* and you will receive a **FREE MimioPad wireless tablet—a \$299* value**. There is **no limit** to the number of free MimioPad tablets you can receive with this offer.**

Teach with an interactive whiteboard while walking around the classroom. Mimio interactive tools dramatically expand your teaching options and let you focus on simply teaching. Class becomes more visual and engaging for students, so they learn more, and enjoy it more.

- **The MimioTeach interactive system** transforms the ordinary dry erase boards you already have into interactive whiteboards— instantly. Affordable and user-friendly, the MimioTeach system makes it easy to teach with technology.
- The slim and lightweight **MimioPad wireless tablet** offers all the same features as a MimioTeach system, including 16 shortcut keys for common functions. It frees you to move about the classroom, and lets students participate without leaving their seats.

The MimioTeach bar is small, lightweight, and very durable. It snaps magnetically onto a standard whiteboard.

Wireless, integrated, and user-friendly, the MimioPad tablet works right out of the box, with no special setup required.

"With my MimioPad, I can stroll around the room while connected—my students are engaged in their learning."
