

# Combo Desk

# BLOWOUT

## HEAVY DUTY Dual Entry Combo

Unitized chair desk features 1-1/4", 16 gauge legs and top support. The full length 1", 16 gauge brace joins right front leg, lower part of desk frame and back support tube for unequalled strength and durability. The design of the brace allows for unrestricted arm movement and access to the book basket from both sides. Parallel tubes are ARC and MIG welded for strength in non-visible locations. Visible joints are oxyacetylene hand brazed for strength, safety and a smooth professional finish. Exceeds toughest state strength codes of Connecticut, Pennsylvania and others.

Only 140 available
